Not just years doing hair & makeup, but we have experience with people. It's allowing our clients to feel calm and supported. Establishing a connection with you is important, and we value this just as much as our hair and makeup expertise.

It's our *time*

In industry that gives us our experience, time working within the wedding world, experiencing how they flow, and how to make this the best experience for our clients.

My team and I are the first people you see on your wedding morning. We want to be the friendly faces you get excited to see, and for us to blend in with your girlfriends and become part of the day with you. Its important to me that the team members I select are not only talented artists, but girls that are genuine, loyal and are great communicating with people.

# Friendly ...

We believe that a relaxed and *Happy* team translates into a positive experience for you and your bridal party.

We also love coffee and great tunes - It brings a better energy!
